

Corporate Team Building with Paranoia Quest

"You can discover more about a person in an hour of play than in a year of conversation." – Plato

INTRODUCTION

- Our corporate exercise focuses on the critical and “out of the box” thinking, conflict resolution, and time management skills required to succeed in today’s business environment.
- We combine unique team building environment with an engaging and dynamic approach to learning and retention.
- Our Igniting Team Performance session will guide participants through challenging activities, which bring to life the specific behavioral, and personality styles uncovered from the normal day to day routine allowing the team to get to know each other better.

Customer Reviews

Jesse G on TripAdvisor

“great for Team Building”

My company took six groups, between 5-6 people per group to do the dream Quest. The actual quest was challenging, fun and interesting. This opportunity really allowed me to see the natural behaviors and process of my teammates, and how they problem solve and work through given tasks. It also allowed us to bond and communicate casually and equally, hopefully opening a fluid line of communication between the office and field. Overall I enjoyed the experience, developing better relationships with my team members.

“Nothing else like it!”

Absolutely incredible experience. After arriving late due to parking, they immediately rescheduled us to the next time (20 minutes later). Not only were the employees extremely friendly and accommodating, but the experience itself was one I will remember for a very long time. We did “Murder Mystery” and solved the quest with 3 minutes to spare. Fastest hour of our lives with adrenaline pumping as we figured the clues out. This was a very unique, intellectually challenging, and exhilarating experience.
